

1. How KLOVE affects my community because this is wholesome good programming, also, a good alternative to the poor programming offered that speaks nothing of bad marriages and sex. I think our community needs all the good programming it can get. 2. I think that KLOVE is a vital source of common decency, unlike what they call wholesome programming, since nothing out there comes close. 3. I believe the service provided by KLOVE is in the public interest, Let me see no violent attitudes, full of love and caring for the individual also no sex, even teenagers can listen without thinking that sex is the end all of everything. This station is a step up from what I have heard through the air ways. To bad there isn't more stations like this. I cannot think of one reason not to continue with this station. I think that just for the content alone that this community would be deprived of a good thing.
